

Hinges in onyx black

 **blum**[®]

www.blum.com

Motion in stylish black

Dark cabinetry radiates sleek elegance – inside and out. Hinges in onyx black discreetly complement cabinets or create a visual impact. Both give you greater scope for designing cabinets without compromising on form.

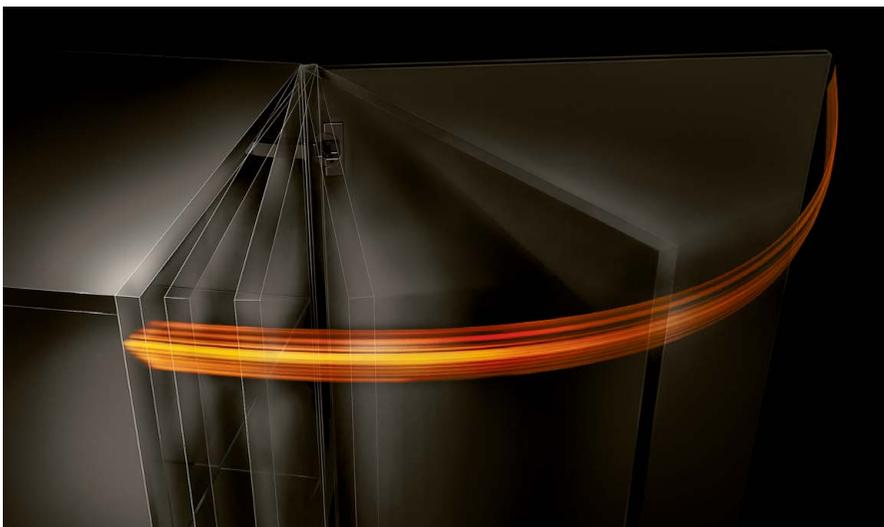

Proven quality and attractive design

High-tech

Blum hinges provide the ultimate experience to cabinet users thanks to their precise engineering and top quality motion. They also excel in terms of proven reliability, easy installation, simplified adjustment and attractive design.

Wide range

All popular CLIP top BLUMOTION and CLIP top hinge types, such as our standard hinges, profile/thick door hinges and blind corner hinges, are available in onyx black.

Soft and effortless closing

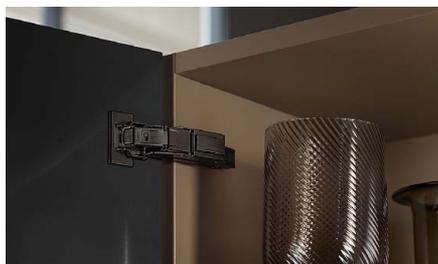

Cabinet doors close softly and effortlessly with BLUMOTION, a sophisticated soft-close feature that is integrated in the hinge cup. The BLUMOTION feature can also be deactivated to ensure that even small or lightweight doors close at the perfect speed.

CLIP top BLUMOTION 110° standard applications

Our wide range of hinges in onyx black offers the right solution for almost every application. It allows you to turn your design ideas into reality – be it elegant sideboards with thin doors or stylish display cabinets with thin doors or stylish display cabinets.

Our range at a glance

CLIP top BLUMOTION applications for thin doors

CLIP top BLUMOTION inset blind corner applications

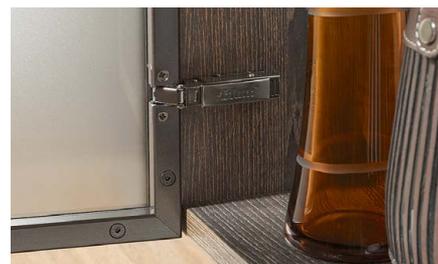

CLIP top BLUMOTION angled applications

CLIP top BLUMOTION applications for thick doors

CLIP top BLUMOTION 155° wide angled applications

CLIP top 95° aluminum frame door applications
